A Prelude:

Hemaya Clip seeks to launch and invest artistic creations made by students in order to reinforce security and protecting society from all kinds of law breaching and crimes. This competition has come, furthermore, in order to provide awareness and protective materials that suit the actual community needs that cope the social and technical development. Integrating them in such messages of the community-oriented security institutions is a necessity that all parts need to collaborate to implement.

Why Hemaya Clip?

-  Building creativity and innovation in the field of awareness
-  Consolidating communication with youth
-  Foresighting security future through the youth' eyes.

Who can participate?

Students at one of the universities, institutes or colleges inside the United Arab Emirates of all nationalities and citizens with overseas scholarships.

What are Categories of Hemaya Clip?

Prevention of drugs:

Prevention of misusing psychological medical drugs.

Misusing psychological medical drugs became one of the main reasons of abusing drugs and addiction. This problem has become increasingly complicated in the light of growing and increasing numbers of psychological medical drugs that some have been dealing with easily and irresponsibly. How to produce a clip that raises awareness about such dangers and methods of prevention?

Role of family in preventing drugs

UAE has recognized the importance of family role in protecting and preventing their children from dangers of drugs, whether through keeping them away from drugs, or seeking treatment from competent authorities. Article 43 of Narcotics Act of 2016 was therefore enacted to be the legal basis for supporting family.

Cybersecurity

Cyberbullying and blackmail

The Internet and social media tools have benefits; however, they have negative effects, such as cyberbullying, blackmail and cyber harassment practiced by some people, who may inadvertently fall under the law. Some also deliberately commit such crimes, hence the importance of protecting our lives and children and securing electronic accounts from hacking, ...etc. What are the best awareness messages that can be addressed to society members?

Prevention of Internet addiction:

Health and Psychiatric Institutions have considered Internet Addiction Disorder as a new mental disorder from which society members must be protected. Figures and statistics indicate an increasing number of hours of Internet use, which may expose individuals to such disorder.
